

# Multiplication Squares

*Need:*

2 x dice

2 x coloured pens/markers

*Instructions:*

Roll the dice and multiply the two numbers. Player 1 finds the answer on the board and draws one line to connect part of the square around that number. When a player draws a line that closes a square, that player gets to colour in the square. The winner is the player that has the most squares coloured in their colour.

4	10	24	3	12	4	25	2	15	20
20	30	36	8	15	5	18	30	12	9
18	5	1	24	20	25	6	1	24	8
12	16	25	6	36	3	36	5	4	24
2	9	24	18	12	8	10	4	15	12
5	15	4	30	6	24	12	2	18	3
